COMMISSION MERCHANTS.

THE undersigned, having this day entered into a copartnership under the firm of BROWN & LARKIN, in the Red Warehouse at the foot of East Water street, near Walker's Point Bridge, would announce to their numerous friends and customers, that they are now doubly prepared to serve them promptly and efficiently, in every branch of their business.

Particular attention will be given to PURCHASING and SHIPPING WHEAT and other Produce for dealers in this market; also, to Storing Wheat for Merchants and Farmers, on the most favorable terms.

The business of Receiving and Forwarding Merchandize for Merchants and others, in the city and country, is particularly solicited, to which careful and prompt attention will at all times be given.

In disposing of Property entrusted to us to be sold on Commission, our effort will be to obtain the best price in the market, and make quick and accurate returns for the same.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Brier Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats,* (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. EMPIRE INSURANCE COMPANY,

Union Springs, N. Y.
CAPITAL......................$100,000.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."

They submit for the judgment of their fellow citizens the following summary of their plan of operations:

1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.

2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.

3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.

4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.

5. Not more than $3000 will be taken in one risk.

6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.

7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.

8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.

9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.

10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.

11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.

12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the *Empire Insurance Company,* do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.

For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

Union Springs, N. Y.

THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

The Intrepid Mother.

A TRAVELLER'S TALE

The diligence from Paris to Chalons stopped one evening, just after dark, some miles beyond the little town of Rouvray, to set down an English lady and her child at a lonely roadside *auberge*. Mrs. Martin expected to find a carriage ready to take her to the Chateau de Senart, a distance of some leagues, whither she was repairing on a visit, but was told that it had not yet arrived. The landlady, a tall, coarse looking woman, who showed her into the vast hall that served at once as a sitting-room and kitchen, observed that the roads were so muddy and difficult at night, there was little chance of her friend arriving before morning. "You had better, therefore," she said, "make up your mind to sleep here. We have a good room to offer you; and you will be much more comfortable between a pair of clean, warm sheets, than knocking about in our rough country, especially as your dear child seems sickly."

Mrs. Martin, tho' much fatigued by her journey, hesitated. A good night's rest was certainly a tempting prospect; but she felt so confident that her friends would not neglect her, that after a moment, she replied: "Thank you madame, I will sit up for an hour, or so—it is not late, and the carriage may come after all. Should it not, I shall be glad of your room—which you may prepare for me at any rate."

The hostess, who seemed anxious that her guest should not remain in the great room, suggested that a fire might be made above; but Mrs. M. found herself so comfortable where she was—a pile of faggots was blazing on the vast hearth—that she declined at first to move. Her daughter, about five years of age, soon went to sleep in her lap; and she herself found that whilst her ears were anxiously listening for the roll of carriage wheels, her eyes occasionally closed, and slumber began to make its insidious appearance.

In order to prevent herself from giving way, she endeavored to direct her attention to the objects around her. The apartment was vast, and lighted more by the glare of the fire than by the dirty candle stuck into a filthy tin candlestick, that stood on one of the long tables. Two or three huge beams stretched across half way up the walls, leaving a space filled with flitting shadows above. From these depended a rusty gun or two, a sword, several bags, hanks of onions, cooking utensils, &c. There were very few signs that the house was much visited, though a pile of empty wine bottles lay in one corner. The landlady sat at some distance from the fireplace with her two sons, who laid their heads together and talked in whispers.

Mrs. Martin began to feel uneasy. The idea entered her mind that she had fallen into a resort of robbers; and the words "*C'est elle*," (it is she) which was all she heard of the whispered conversation, contributed to alarm her. The door leading into the road was left ajar; and for a moment she felt an inclination to start up and escape on foot. But she was far from any other habitation, and if the people of the house entertained any evil designs, her attempt would only precipitate the catastrophe. So she resolved on patience, but listened attentively for the approach of her friends. All she heard was the whistling of the wind and the dashing of the rain, which had begun to fall just after her arrival.

About two hours passed in this uncomfortable way. At length the door was thrown open and a man dripping wet came in. She breathed more freely; for this new-comer might frustrate the evil designs of her host, if they entertained any. He was a red haired, jovial faced looking man, and inspired her with confidence, by the frankness and ease of his manners.

"A fine night for walking," cried he, shaking himself like a dog who has scrambled out of a pond. "What have you give me? *Salut, messieurs et mesdames.* I am wet to the skin. Hope I disturb nobody. Give me a bottle of wine."

"The hostess, in a surly, sleepy tone, told her eldest son to serve the gentleman, and then, addressing Mrs. Martin, said:

"You see your friends will not come, and you are keeping us up to no purpose. You had better go to bed."

"I will wait a little longer," was the reply, which elicited a kind of shrug of contempt.

The red haired man finished off his bottle of wine, and then said:

"Show me a room, good woman—I shall sleep here to-night."

Mrs. Martin thought that as he pronounced these words he cast a protecting glance towards her; and she felt less repugnance at the idea of passing the night in that house. When, therefore, the red haired man, after a polite bow, went up stairs, she said that as her friends had not arrived, they might as well show her to a bed-room.

"I thought it would come to that at last," said the landlady. "Pierre, take the lady's trunk up stairs."

In a few minutes, Mrs. Martin found herself alone in a spacious room, with a large fire burning on the hearth. Her first care, after putting the child to bed, was to examine the doors, closed only by a latch. There was no bolt inside. She looked around for something to barricade it with, and perceived a heavy chest of drawers. Fear gave strength. She half lifted, half pushed it against the door. Not content with this, she seized a table, to increase the strength of her defence. The leg was broken, and when she touched it, it fell with a crash to the floor. A long echo went sounding through the house, and she felt her heart sink within her. But the echo died away and no one came; so she piled the fragments of the table upon the chest of drawers. Tolerably satisfied in this direction, she proceeded to examine the windows. They were all well protected with iron bars. The walls were papered and, after a careful examination, seemed to contain no signs of a secret door.

Mrs. Martin now sank down into a chair to reflect on her position. As was natural, after having taken all these precautions, the idea suggested itself that it might be superfluous, and she smiled at the thought of what her friends would say when she related to them the terrors of the night. Her child was sleeping tranquilly, its rosy cheeks half buried in the pillow. The fire had blazed up into a bright flame, while the unsnuffed candle burned dimly. The room was full of pale, trembling shadows, but she had no superstitious fears. Something positive could alone raise her alarm. She listened attentively, but could hear nothing but the howling of the wind over the roof, and the pattering of rain against the window panes. As her excitement diminished, the fatigue—which had been forgotten—began again to make itself felt, and she resolved to undress and go to bed.

Her heart leaped into her throat. For a moment she seemed perfectly paralyzed. She had undressed and put out the candle, when she accidentally dropped her watch. Stooping to pick it up, her eyes involuntarily glanced towards the bed. A great mass of red hair, a hand and a gleaming knife, were revealed by the light of the fire.—After the first moment of terrible alarm, her presence of mind returned. She felt that she had herself cut off all means of escape by the door, and was left entirely to her own resources. Without uttering a cry, but trembling in every limb, the poor woman got into the bed by the side of her child. An idea—a plan—had suggested itself. It had flashed through her brain like lightning. It was the only chance left.

Her bed was so disposed that the robber could only get from beneath it by a narrow aperture at the head without making a noise; and it was probable that he would choose, from prudence, this means of exit. There was no curtain in the way, so Mrs. Martin with terrible decision and noiseless energy, made a running knot in her silk scarf, and held it poised over the aperture by which her enemy was to make his appearance. She had resolved to strangle him in defence of her own life and that of her child.

The position was an awful one; and probably, had she been able to direct her attention to the surrounding circumstances, she might have given way to her fears, and endeavored to raise the house by screams. The fire on the hearth, unattended to, had fallen abroad, and now gave only a dull, sullen light with an occasional bright gleam. Every object in the vast apartment glowed with a resistless emotion. Now and then a mouse advanced stealthily along the floor, but, startled by some movement under the bed, went scouring back in terror to its hole. The child breathed steadily in its unconscious repose; the mother endeavored also to imitate slumber, but the man under the bed, uneasy in his position, could not avoid occasionally making a slight noise.

Mrs. Martin was occupied with only two ideas. First she reflected on the extraordinary delusion by which she had been led to see enemies in the people of the house, and a friend in the red-haired man, and secondly, it struck her that, as he could fear no resistance from a woman, he might push away the chairs that were in the way, regardless of the noise, and thus avoid the snare that was laid for him. Once, even, she thought that, whilst her attention was strongly directed to one spot, he had made his exit, and was leaning over her; but she was deceived by a flickering shadow on the opposite wall. In reality there was no danger that he would compromise the success of his sanguinary enterprise; the shrieks of a victim put on its guard might alarm the house.

Have you ever stood, hour after hour, with your fishing rod in hand, waiting with the ferocious patience of an angler, for a nibble? If you have, you have some faint idea of the state of mind in which Mrs. Martin—with far other interests at stake—passed the time, until an old clock on the chimney piece told one hour after midnight. Another source of anxiety now presented itself—the fire had nearly burnt out. Her dizzy eyes could scarcely see the floor, as she bent with fearful attention over the head of the bed—the terrible noose hanging, like the sword of Damocles, above the gloomy aperture. "What," she thought, "if he delay his appearance until the light has completely died away? Will it not then be impossible for me to adjust the scarf—to do the deed—to kill this assassin—to save myself and my child? Oh, God! deliver him into my hands!"

A cautious movement below—the dragging of hands and knees along the floor—a heavy suppressed breathing—announced that the terrible moment was near at hand. Her white arms were bared at the shoulder; her hair fell wildly around her face, like the mane of a lioness about to leap upon its prey; the distended orbits of her eyes glared down upon the spot where the question of life and death was to be so soon decided. Time seemed immeasurably lengthened out, every second assumed the proportions of an hour. But at last, just as all lines and forms began to float before her sight through an indistinct medium of blended light and darkness, a black mass interposed between her eyes and the floor. Suspense being over, the time of action having arrived, every thing seemed to pass with magical rapidity. The robber thrust his head cautiously forward.—Mrs. Martin bent down. There was a half-choked cry—the sound of a knife falling on the floor—a convulsive struggle. Pull! pull! pull! Mrs. Martin heard nothing—saw nothing but the scarf passing over the head of the bed between her two naked feet. She had half thrown herself back, and holding her scarf with both her hands, pulled with desperate energy, for her life. The conflict had begun; and one or the other must perish. The robber was a powerful man, and made furious efforts to get loose; but in vain.—Not a sound escaped from his lips—not a sound from hers. The dreadful tragedy was acted in silence.

* * * * *

"Well, Mother Guerard," cried a young man, leaping out of a carriage that stopped before the door of the *auberge* next morning; "what news have you for me? Has my mother arrived?"

"Is it your mother?" replied the landlady, who seemed quite good-humored after her night's rest, "There is a lady up stairs waiting for some friends, but she does not speak French easily, and seemed unwilling to talk. We could scarcely persuade her to go to bed."

"Show me the room!" cried Arthur, running into the house.

They soon arrived before the door.

"Mother! mother!" cried he, but received no answer.

"The door is only latched, for we have no robbers in this part of the country," said the landlady.

But a formidable obstacle opposed their entrance. They became alarmed, especially when they heard the shrieks of the little girl, and burst open the door.

The first object that presented itself was the face of the robber, violently upturned from beneath the bed, and with protruding tongue and eyeballs; the next was the form of Mrs. Martin, in the position in which we had left her. She was still pulling with both hands at the scarf, and glaring wildly towards the head of the bed. The child had thrown its arms around her neck, and was crying; but she paid no attention. The terror of that dreadful night had driven her mad.

Shameful Misrepresentation.

We find in the Morning *News* an article in reference to a speech made by Mr. DALLAS in Philadelphia on the 7th. The *News* says:

> Mr. DALLAS made an able address on taking the chair, in the course of which he nailed to the counter as the "weak invention of a frightened enemy" the Roorbach that Mr. PIERCE had defended the proscriptive religious test against Roman Catholics in the Constitution of New Hampshire. Mr. Dallas shows that the Democracy, led on by two of the brightest stars of New Hampshire, LEVI WOODBURY and FRANKLIN PIERCE, had made the most strenuous exertions to have this contemptible feature expunged; that they had succeeded *twice* in having a Convention called for this very purpose, but as it required a *two-third* vote of the people to ratify the new Constitution they were *twice* defeated by the combined whig and abolition vote at the polls.

We regret that we are called upon to notice an article like the above, for we had hoped that all appeals to the religious bias of our fellow-citizens would be avoided by both political parties during this campaign. It is a dangerous step for politicians of either party to take, and it is wrong were it not dangerous. We will not take it now, but simply refer all persons who care to know the truth of the matter to the record of the vote cast upon the question, which record shows that while the majority of the whig towns cast majorities for the abolition of this unjust test, the majority of the Locofoco towns gave their votes for retaining it. We have the vote on file.

And furthermore, we are free to say that if Levi Woodbury *had* exerted his influence in that democratic State (by name), and if Mr. Pierce had taken a tithe of the interest in abolishing the test that he did when he stumped the state against John P. Hale and John Atwood, the Free Soil candidates for Governor, that test would have been abolished.

A Sign in the North East!

In 1850, Chas. Andrews, dem., was elected to Congress from what is called the "Comet" district of Maine—so called from the fact that the Locos stretched it from the Atlantic to Canada, to ensure a Congressman—by 63 plurality. Mr. Andrews recently resigned, and a special election has resulted in the success of his Whig opponent in the former canvass, Mr. REED, by over 800 majority! The Portland *Advertiser* remarks as follows, in announcing the result:

> We are indebted for this victory to the spirit of enthusiasm and confidence inspired by our recent State Convention, from which the delegates from this district returned, with the full confidence that Gen. Scott is to be our leader in the approaching presidential campaign, and with a determination that its opening in this State should be a fitting prelude to the greater victory which will crown our efforts in September and November.
>
> It is an indication of what may be done in Maine. Three parting cheers to the Comet District! and three cheers for Scott!

"TO WHAT BASE USES MAY WE COME AT LAST"!—In the curious series of letters written to Greer and Donaldson last year, occurs one from WM. R. KING of Alabama, now the Baltimore democratic nominee for Vice President. In that letter, says the Washington *Republic*," it was charged by Mr. King that a large portion of the Democracy of the North then "made common cause," with the Abolitionists—that to their "base abandonment of principle" all the troubles of the South might be ascribed—that with these abolitionized Democrats the Southern Democracy could never act in concert—and that to such an alliance he preferred the alternative of disunion. Some ten months have passed since then, and now we have the Southern Democracy coalescing with the North, without any professed change of opinion on the part of either; and producing a campaign ticket, with the name of W. R. King as the choice of the "base compact" for the Vice Presidency. And Mr. King, who denounced the scandalous "abandonment of principle," when in prospect, actually accepts one of its products—his own nomination!

Cruelty to the Vanquished.

Of all cruel things done within our recollection, the worst of all seems to us to be the treatment which Messrs. Cass, Buchanan, Douglas and others are just now receiving at the hands of the rampant Democracy. It is not enough that they have been sadly, badly beaten at Baltimore, but committees of all sorts are assailing them from every direction, insisting upon their making speeches to the effect that it was all for the best that they were laid on the shelf. It seems a cruel insult thus, in the paroxysm of their affliction, to make them parade a joyful countenance, while their hearts are breaking. But "it's none of *our* funeral."

THAT RATIFICATION MEETING.—In looking over the official record of the proceedings of the "democratic" meeting on Saturday evening, we find nothing worthy of particular note, except that our friend JAMES' speech, he being a free soiler of old, was considered of so much importance as to be reserved for publication "*in extenso*." Mr. RYAN, considering the very ultra partizan character of his speech, paid a very high compliment to DANIEL WEBSTER, and other speakers occupied the time briefly. The affair does not seem to have excited much enthusiasm.

☞ South Carolina has appointed delegates to the Whig National Convention, eulogized Fillmore and Webster, and will support the Whig nominee for President, if he is sound on the Compromise.—*Free Democrat.*

Not by a great deal. South Carolina never will give her electoral vote for a Whig nominee, until she becomes more democratic—until men's souls are of some account there—until somebody besides rich planters can vote there.

A CONTRAST.—What a cold inhospitable climate they must have on the Lake Shore? The Sentinel last week, chronicled a fall of snow in June.—Here on Rock River, we are enjoying Italian weather, and our gardens begin to give early promise of fruit. Early Scarlet strawberries are ripening, Peas are in full blossom and if the General will call this way the latter part of the week we will give him a mess of green peas.—*Watertown Register.*

"The General" is probably in a region where such good have been abundant for some time, but that fact need not interfere with our Watertown friend's generous offer. We can't come, however. Suppose you send them along!

P. S. Never mind the vegetables. Our friend Dr. WEEKS, of this city, says that he can furnish us now.

MENASHA AND MANITOWOC PLANK ROAD.—We had the pleasure of an interview with GEO. REED, Esqr., of Manitowoc, a few days since, on his return from negotiating a loan for the plank road which has been commenced between Manitowoc and Menasha. It is to be 42 miles in length, and will connect the thriving lake town by an easy land carriage with the growing towns along the lower Fox from Lake Winnebago. Manitowoc has a river, which by a prudent expenditure of money, may easily be made an excellent harbor, and will doubtless strive earnestly and successfully with Sheboygan and Green Bay for a considerable share of the trade of the region of country along the Fox. The road cannot but be good paying stock.

AN ENDORSEMENT.—The Potosi *Republican* knows all about Mr. PIERCE—it does. In hoisting his name at the head of its columns, it says:

> In his own State, he has held the highest office in her gift—that of governor, and for a number of years has represented her interests in the United States Senate, and at the bar of the Supreme Court it is acknowledged that he has no superior in the late war with Mexico. He held the rank of Brigadier General, and his brave and gallant conduct, in nearly every action during that famous march of the American army from Vera Cruz to the city of Mexico, elicited the highest encomium.

THE NOMINATION.—The Platteville *American*, Independent, says:

> As the standard bearer of his party Mr. Pierce has been raised from comparative obscurity to a position of great eminence, for a time at least. In this nomination the democratic party have adopted the same course of conduct which guided their deliberations in the nomination of James K. Polk, and no doubt hope, by this ruse, to be reinstated in power at the approaching election. The policy of producing harmony by dropping old party hacks and running untried and unknown nags was once tried and the result was victory. It remains now to be seen whether those veterans who have done battle so long and so faithfully, will allow themselves to be thrust aside to make room for one unknown out of his own Congressional District.

A BREEZE.—The Jonesborough (Tenn.) Railroad Journal relates the following as a specimen of the way they do things in Tennessee:

> S. D. Adams has written a letter to Col. Roper of Dandridge, Tenn., notifying him that he will shortly publish his life, which will be illustrated with wood cuts, and will disgrace him and his children to the tenth generation. Col. Roper, in reply, says he will prove his calumnies to be false in every material part, and his reputation to be that of a common street liar; and further that if he shall come in contact with him he "will cowhide him in a manner commensurate with the spirit of the age." Mr. Adams was until recently a Methodist minister, but has been suspended on charges preferred against him by Rev. Mr. Birdwell.

A PROPHET.—Among the letters received in answer to invitations to attend the Pierce ratification meeting here, was one from VOLNEY FRENCH, of Kenosha, an imaginative gentleman who says that the abolitionists—meaning the free soilers—of Kenosha County will join the Whigs; and then prophesies that the county will give Pierce 200 majority! All gammon; if such a contingency should take place you could put the "regular Democracy" into a moderate sized omnibus.

An Erroneous Idea.

"The idea that the Presidency is a reward due for eminent or brilliant services in the council or in the field—though it has at times obtained extensively, and often served either wholly or in part to elevate distinguished statesmen and soldiers to that exalted station—is an erroneous and a dangerous one."—*Washington Union.*

Very well said, considering the character of the nomination made by the *Union's* party.

CAPT. RYNDERS'S SERMON.—If any of our Whig friends ask "Who is Frank Pierce?" we simply reply by saying he is the man selected by *Providence first* and by the *Democracy* next, to administer this Government for four years from the fourth of March next.—*National Democrat.*

This is all very devout, but we think the commentaries of the New York Advertiser somewhat opposite; it says:

> "If the above be true, leaving out of view its irreverence, we can only say that the Democratic convention was a long while in resolving to concur with "Providence" in the arrangement.—They tried every other man before they took up "the man" whom "Providence" had already determined upon, and really spent four days in laboring to nominate somebody else."

ANOTHER.—Scarcely a month passes by without recording the opening of another splendid Hotel in New York City, complete in all its garniture. The "Gramercy" is just now attracting the notice of travellers. It stands on Broadway, corner of 20th street, is of brick, five stories high, and occupies a space of 190 by 100. The cost of the furniture was $50,000.

☞ The Sault Ste. Marie Ship Canal is to be 100 feet wide at the surface, and 76 at the bottom and 12 feet deep. It is to be free, except such tolls as are necessary to keep it in repair—*News.*

The St. Marie Ship Canal stands a great chance of being built if Mr. Pierce should, by any misfortune, become President!

For the Daily Sentinel.

A Parallel.

Messrs. Editors:—You were not present at the ratification meeting of the nomination of the candid *candy*-candidate, but you may be able to answer one question which the committee at the meeting was unable to answer. What is, now, the middle name of the *Candy*-date? The committee, afraid to be wrong in one way, sailed round this doubtful middle point, quoting only "FRANKLIN PIERCE." It smells like an old story of the Emperor Augustus, whose son in law, Marcus Vipsanius Agrippa, being of low extraction and ashamed to bear a family name which at once betrayed his ignominious origin, styled himself "Marcus Agrippa," by omitting the middle name. It happened, however, in a public discussion, that one of the speakers of the opposite party, disgusted with the haughty conduct of the would-be Aristocrat, mischievously alluded to the heel of Achilles—by styling him "Marcus Agrippa and whatever is between." So our democrats, proud of having got up a *candy*date among whose merits they count his buying *one cents* worth of candy for a crying boy "although the boy was a total stranger to Gen. Pierce," and who is so well known that nobody knows his middle name, did, like proud Agrippa omit "what is between," not for quite so fastidious a reason, I am sure, but by doing so compelling us to style the gallant hero of Chepultepec, "Franklin Pierce and whatever is between."
JUSTICE.

THE BALTIMORE PLATFORM.—Somehow or other the *Free Democrat* does not like the last platform over much, as we judge from the closing paragraphs, which we copy from its leader of yesterday:

> On the Slave question it has established, by its Resolutions, a Gag Law omnipresent as the Deity, all-surrounding as the atmosphere, covering all human relations, and forbidding by deed, word, sign or symbol, the expression of a thought, feeling or wish for the redemption of three millions of Republican slaves, or a remonstrance "against the deep damnation of their taking off."
>
> This is the position of the Democratic party, in the year of grace 1852, at the close of the 76th year of our National Independence! The little finger of this monstrous Edict against the Freedom of Speech is thicker than the loins of all the Gag Laws enacted by a slavery-ruled Congress, within the last 18 years, and throws into the shade of oblivion the alien and sedition laws of the elder Adams. The Democratic party, in its high-handed outrages upon the liberties of the people, can go but one step farther, in diabolism, and that is, to enact a law making it high treason to speak a word against Slavery, and hang up all the Anti-Slavery men and women by the neck, until they are dead!
>
> Let it do this, and its immortality of infamy will be complete!

Another Murder.

Again it becomes our painful duty to announce one of the most diabolical murders ever perpetrated in this section of the country. The particulars, as we gather them, are as follows:

David Darst, a man about 30 years of age, came to this county some days since, and entered (or deposited money with Milton Barlow to enter) a piece of land or a farm, about seven miles from La Crosse village. Said Darst had with him two yoke of working cattle and a waggon—one or two trunks and some other unimportant articles, such as a gun, hunting knife, &c. He took his chattels and went on to his land and constructed a shanty to stop for the time being. We also learn that he came to this place by land, from Galena, having come from Peoria, Ill., to Galena by steamboat. Mr. Darst had not been on his premises but a day or two, when a demon, calling his name Watts, who had landed at this place a few days previous, from a steamboat, searched out the whereabouts of said Darst, by enquiry, and made off immediately to his cabin. In two or three days this Watts returned with the cattle and all the property belonging to Darst, which he had with him on his land, and it was the unnatural and inconsistent answers that Watts gave to interrogatories as to how he came in possession of Darst's property, which led to the suspicion that all was not right. Search was immediately commenced, and the mangled corps of Darst was found on Saturday last, a few rods from his cabin, secreted in the brush. The murderer had not yet left the place; but was trying to dispose of the plunder, when late Saturday evening he was arrested, and has since had his examination and committed to jail to await his trial.—*La Crosse Times.*

La Crosse Items.

From the Times.

Judicial Election in St. Croix County.—The people of St. Croix County have lately held a special election for County Judge, and we are much gratified to learn that Mr. S. S. N. Fuller, a reliable democrat and a sound man, was the successful candidate.

We have now five public houses, all doing well, and giving general satisfaction. Early in the spring, when we had but three, they were too much crowded to give first rate accommodations; but now, they can, and do give as good accommodations as any public houses in the state, and keep full all the time.

Mr. Grover, the murderer of Richardson, was found guilty, before Justice Looney and lodged in jail to await his trial.

The termagant, who was living with Grover, has since been arrested and lodged in jail, as an accomplice in the murder, and for threatening the lives of her neighbors. This is the final breaking up of a "hell upon earth," which has disgraced the county of La Crosse for months. May God have mercy on their souls, and on the soul they have caused to take its flight.

The citizens of La Crosse, and others, residing in different sections of the county, met at the Court House, on Monday evening, of this week, and resolved to build a Jail for the use of the county, by subscription.

The jail is to be built of stone—ten by sixteen feet in the clear—with two cells. Walls two and a half feet thick—timbered and rocked over, with a good shingled roof. This will answer the purposes of the county until it is able to build larger—is large enough and good enough for the present.

Correspondence of the N. Y. Tribune.

Concord, June 7.

U. S. SENATOR—MAINE LAW—GEN. PIERCE.—The Legislature is now in session here in Concord. Nothing of particular interest has transpired as yet in the honorable body. The "wire pullers" are arranging matters for the choice of the U. States Senator, who will soon be chosen. Mr. Burke's prospects seem as favorable as any man's.

The political leaders have not yet decided as to the best course on the Maine Law, which will soon come up for examination. In all probability it will pass the Senate and House, and be signed by the Governor. The Democrats, although desirous of its defeat, still will favor it generally, since the people through the State are mostly in its favor. On Wednesday and Thursday of this week, there is to be a grand Temperance celebration here, when the petition of the Maine Law will be presented to the Legislature.

At about half past two last Saturday afternoon all here were thrown in great confusion by the telegraphic report that our neighbor, Frank Pierce, had received the nomination at the Democratic Convention at Baltimore. Not a man in Concord could believe it. What an idea!

The Right of Petition.

The Springfield *Republican* correctly says:—

> The great battle, on the various questions relating to slavery, conducted under the leadership of John Quincy Adams, involving the right of petition, may be said to have commenced in 1836, when the celebrated report made by Mr. Pinckney, of South Carolina, was introduced, discussed, and adopted. The report declared that Congress ought not to interfere in any way with slavery in the District of Columbia, because it would be a violation of the public faith, unwise, impolitic, and dangerous to the Union. It further declared, that all petitions, memorials, &c., relating in any way, or to any extent, to the subject of slavery, shall, without being printed or referred, be laid on the table, and no further action be had thereon.
>
> On the vital questions embraced in this report, the Yeas and Nays were repeatedly taken; and the name of *Franklin Pierce* is uniformly found in the affirmative—in favor of sustaining the Report to the fullest extent. And in accordance with this was the entire action of Mr. Pierce in both Houses, while he remained in Congress.

UNION VALLEY R. R.—Mr. John B. Macy, of Fond du Lac, passed thro' this place, on his way home, this week, and reports favorable to the early completion of the road. He says locomotives, iron, etc., will be along in a short time, and he is not able to decide positively, but thinks there is no doubt but the fixtures for the road will be landed here, instead of Green Bay. Messrs. Strong, Bradley & Co., contractors on this road, were here from the East a day or two since, and are equipped with a strong force for the season.—*Sheboygan Mercury.*

New York June 11th, P. M.

South Carolina State Whig Convention met last night and appointed Dr. Parker, President. Hon. Waddy Thompson, Mr. Gregg Barnwell, alternate; Dr. Samuel Dixon, S. Tupper, alternate, appointed delegates at large to national convention, the district delegates are, W. Whaley, Geo. W. Brown, H. H. Williams, R. R. Paine, Wm. Patten, T. B. King, and G. T. Bryan.

City Matters.

COMMON COUNCIL.

There was a special meeting of the Common Council yesterday morning, at which some important business was done.

Eleven members present.

Mr. UPHAM presented the request of the 4th of July Committee for an appropriation. Ald. Brown moved to appropriate $200. Lost, on the ground that the Council has no power to pay out the funds.

A resolution passed extending the time in which Assessors may make their returns, to the 24th of June.

An ordinance to amend the License Ordinance, in consequence of the decision of the Police Justice, was reported and read by the Mayor, and passed under the suspension of the rules.

Ald. Prentiss offered a resolution, that no liquor be sold on Spring and Clermont streets on the 4th of July. This was in accordance with the request of the Committee of Arrangements, confining and regulating the places of sale. Ald West moved to amend, so as to exclude the sale of spirits from the public grounds.

No action was taken on the resolution, and the Board adjourned.

A Card from the Milwaukee Hose Company.

At a special meeting of Supply Hose Company, convened on the evening of the 11th inst, the following resolutions were unanimously adopted:—

Resolved, That we tender to the officers and members of Hope Hose Co., of Chicago, our sincerest acknowledgments for the many kindnesses and civilities lately shown to us as their invited guests; and hereby assure them that their generous courtesy will ever be held in pleasing remembrance.

Resolved, That our sincere thanks be offered to U. P. Harris, Chief Engineer of the Chicago Fire Department, and his assistants, for their extreme politeness extended to us during our recent visit at that city, and that our kindest regards be also presented "to the ladies" for their delicate demonstration of friendship and esteem so manifestly shown to us upon that occasion.

Resolved, That we herewith offer to Ira A. Couch, proprietor of "The Tremont," and to the officers of the steamers Arctic and Pacific our hearty and united thanks for their gentlemanly attention and extreme kindness with which they anticipated our every wish, and insured our complete comfort.

Resolved, That U. P. Harris and his assistants, the members of Hope Hose Company, and the ladies of Indiana street Chapel, be and are, hereby unanimously elected honorary members of this company.
J. C. STARKWEATHER, Fn.
R. L. LEGGETT, Sec'y.

☞ THE ARCTIC AND THE MAILS.—The *Arctic*, Capt. BUTLIN, came in from Chicago yesterday afternoon with a heavy head of steam on, making the time only about 6½ hours, if she left at her regular time. We are afraid that in these cracking times of fast running, our mails may suffer occasionally, for if the Chicago distributing authorities have an idea that we shall get our matter before nightfall, they will doubtless keep it over for a day or two. Such things have happened.

Here, on the 15th June, (yesterday) year of grace 1852, with cars and boats pitching through the world at 20 to 40 miles to the hour, we get no New York mail except a lot of old papers due Sunday evening—no Boston—no Washington—no Albany—no Buffalo—not one from anywhere on Lake Erie—only two Detroit—and not a Chicago paper of any kind! Nobody to blame?—Of course there isn't;—we wish there *was* somebody at the bottom of it all. We'd like to tie him with P. O. twine, chain him in a stout mail bag with old envelopes for provender, and have him stowed away in the dead letter office till the regular time of burning comes round.

SOUTHERN MICHIGAN LINE.—We have to notice another change of programme for this line. Now that the *Baltic* is on hand, the boats will extend their trips to Sheboygan daily, going on directly from here, after their arrival in the afternoon from Chicago. The *Baltic* goes down this afternoon. We hope that some means will be found to carry out the plan of an evening line. Capt. WHITAKER had another merry party on board the *Golden Gate* last night. He means to give his boat a favorable introduction to our Milwaukee public.

CORNER STONE.—We hope that our citizens will bear in mind that the corner stone of the Milwaukee Normal Institute is to be laid this afternoon, at the corner of Milwaukee and Division sts., 1st Ward, with all appropriate ceremonies. Rev. Dr. HUMPHREY, late of Amherst college, delivers the address, and it will doubtless be one of great interest. The time is 4 P. M.

FOR BUFFALO.—The staunch and fast steamer *Sultana*, Capt. APPLEBY, leaves for Buffalo this evening, at 8 o'clock. H. K. JEROME, the attentive agent of the line, will attend to all queries, and to all business connected with the boats.

SHEBOYGAN BONDS.—We learn that the bonds recently put into market by the authorities at Sheboygan, for building the harbor, have been disposed of in New York at 2 per cent premium. They were taken for a house in Switzerland.

THE PRISONERS.—Sheriff WHITE starts for Waupun with A. C. Lawson and wife, A. Little, and George Cady, lately convicted and sentenced.

The proceedings in the murder case will be certified to GOV. FARWELL to-day.

AN ACT.

To provide for the regulation of the state tax of the several counties of the State.

The people of the State of Wisconsin represented in Senate and Assembly, do enact as follows:

SEC. 1. The Governor, Secretary of State, State Treasurer, Attorney General, and Superintendent of Public Instruction, shall be a board of equalization, of the assessments of the several counties, and the state tax to be paid by them. The Governor shall be ex-officio president, and the Secretary of State secretary of such board.

SEC. 2. The said board shall meet at the office of the Governor, on the second Monday of February of each year, and shall examine the aggregate valuation of the taxable property of the several counties of the State for the last preceding year, as returned to the Secretary of State, and shall increase or diminish the same, in any county, so much per centum, as may in their opinion be necessary to produce a just relation between all the relations of the taxable property in the state, and the amount so added or deducted, in each case shall be entered in a book to be kept for that purpose, and they shall carry out in such book the amount of state tax to be charged against each county according to the said valuation so increased or diminished, and according to the percentage of state tax levied for the previous year. The said board shall in no instance reduce the aggregate valuation of all the counties below the aggregate valuation returned.

SEC. 3. It shall be the duty of the Secretary of State to charge to those counties, the valuation of which is increased, the amount of additional state tax assessed against them respectively, and such counties shall be liable for the payment into the State Treasury, on the second Monday of February of the succeeding year, for the amount so charged to the same, and the Secretary of State shall notify the clerks of the Boards of Supervisors of such counties before the annual session of such boards of supervisors, that such amounts have been charged against their counties, and it shall be the duty of the board of supervisors of every such county to levy, in addition to the State tax for the current year, an amount sufficient to pay the amount charged against such county for under assessments for the previous year.

SEC. 4. It shall be the duty of the Secretary of state to credit to the counties the valuation of which is diminished by the said board equalization, the amount by which the state tax chargeable to such counties respectively shall be diminished, and to notify the clerk of the board of supervisors of such counties, before the annual meeting of such board, that such amounts have been credited to their respective counties.

Approved April 19, 1852.

IMPORTED STOCK.—Mr. A. P. Lyman has recently bro't into the county a full blooded "Devon" Bull and Cow, and a full blooded "Durham" Bull and Cow, bred by R. H. Van Rensalaer and F. Roche, of Morris, Otsego co. N. Y. He has also received a pair of Leicestershire, and a pair of Southdown Sheep, full bloods. We have seen the stock, and we venture to say it is by far, the best in the state. Mr. L. spent some days in search of this stock, and those acquainted with the price of imported stock, will see at once that this purchase, together with the transportation, was attended with no inconsiderable expense, a sum that would astonish those in the habit of buying cattle for $20 or $25 a head.

The farmers now have an opportunity to improve their stock, and we confidently expect that Sheboygan county will produce more fine blooded cattle than any other in the State.—*Sheboygan Mercury.*

Epitaphs—The Railroad Style.

The New York SUNDAY TIMES suggests that it would be a good idea to place a cross, bearing an appropriate epitaph, at the locality of each railroad accident, as a gentle intimation to passengers of the peril of their situation, and a continual memento of the uncertainty of life on railroads. It is true that the multiplicity of cruciform indicators might, in the course of time, be attended with some inconvenience, but the advantage would be gained of pointing out to the traveler the road where he would meet the fewest crosses, and, consequently, stand the best chance of security. The TIMES offers a few samples of the style of epitaph which should be selected, as follows:—

"A sudden pitch
From a misplaced switch,
Laid me dead in this ditch."

"Off the track the engine rushed—
Some were drowned, and I was crushed."

"Here repose two victims staked
At one blow by the same snakehead."

What is life? 'Tis but a vision;
Here I died by a collision.
Twenty more died by the same,
Verdict—'Nobody to blame!'"

Sister, mother, aunt and me
Were run over—here we be.
We should have had time to mizzle,
Had they blown the engine's whistle."

"Sweeping round a curve,
Whose outer fixture bordered an abyss,
The cars were canted down the precipice,
And seven of us killed. But what of that?
'Twas the curve did it. And the engineer,
Being on a bender, was excused!"

"Trine-borne traveler, rushing by,
As thou passest pipe thine eye:
Here a car, well filled with freight,
Killed sixteen and wounded eight.
For a moment, friends, be weepers
As you pass the railroad sleepers,
You may share our fate—why not?
Ere you reach the next depot."

"Here are deposited the bones,
(The flesh being torn off,)
Of an unknown man,
Who being deaf, blind and lame,
Neglected to obey the customary signals,
And was run over as a punishment
For his contumacy.
The engineer promptly stopped the engine,
After it had cut the body in two,
And, with most exemplary humanity,
Conveyed the remains to an adjacent woodshed,
Where all means of resuscitation were tried,
But, alas!
The vital spark had fled!
For the humanity they display'd,
The engineer and signal men
Were presented by the company
With a service of plate.
Go thou and do likewise."

VESSEL CAPSIZED—CREW PROBABLY LOST.—Capt. Zimmerman of the schooner T. C. Cobb, of Erie, which arrived in Cleveland on Thursday, reports seeing a topsail schooner capsized off Madison Dock on Wednesday evening. It was nearly dark, and the wind blowing so strongly that the Cobb was unable to get to the wreck, though Capt. Zimmerman came to and went around it, picking up some of the blocks and the yawl, which was attached by a stern line. There were no persons on or about the wreck. The letters "L O" upon the stern, indicated that the vessel was built at Buffalo. It is supposed that all on board at the time the vessel capsized were drowned.—*Det. Adv.*

BY THE O'REILLY LINE.

News from Baltimore.

Baltimore, June 15

Whig delegates coming in quite freely. It is thought Gen Scott will receive 130 votes, but not 149, which will be need to secure his nomination. A number of Fillmore delegates from the South and West have laid down a platform which includes the Compromise measures as a finality opposing the doctrine of non-intervention, and in favor of river and harbor improvements to a moderate extent.

Webster's chances for the nomination on the 2d or 3d ballot are thought to be very favorable. He has many strong and ardent supporters here besides many from the Eastern States

Senators Cooper of Pa., and Fish of N. Y., are candidates for the Vice Presidency.

Senator Bell of Tennessee is considered the most sure candidate.

A caucus was held this A. M. at which it was resolved to support no candidate whose views on the leading political pleasures of the day were not fully and widely known.

HALLUCINATION.—They who have read the first few chapters of Dickens' "Bleak House," will remember the old lady who haunted the Court of Chancery waiting for a "Judgment;" a regular fixture, as much as the crier or tip staves. A counterpart to this invention of the novelist is now in attendance on the General Synod of the Dutch Church at Williamsburgh She has been present at nearly all of the important ecclesiastical assemblies which have convened in this vicinity for the last few years, and sometimes has been quite troublesome The Presbyterians have once or twice been obliged to remove her from their assemblies by force, or account of the disturbance created by her importunities; and not long since a Rev. Dr. of that church who ministers in this vicinity, came off "second best" in his efforts to lead her from the session room of a judicatory whose councils were disturbed by her applications for relief. She attended the last session of the National Synod at Albany, and succeeded in getting her papers "before the house." Her complaints are made up of imaginary grievances, told with all the pathos of reality, and in general her applications for redress are couched in parliamentary language, and are very able written.

Yesterday, after the Synod had been organized, and the Standing Committees announced, she advanced to the clerk's desk, and presented her communication. It was received, and ordered to be read. One of the clerks fulfilled the order with becoming gravity The document gave the history of her application last year at Albany, recounted briefly the discouragements she had met, and gave, in a style inimitably graphic, an account of her reception before the Committee to whom her petition was referred. Her conduct yesterday, while her application was read, was decorous and becoming, but after her papers were ordered to lie on the table, her fancied wrong was too much for her equanimity, and the tears chased one another down her sallow cheeks.—*Jour. Com.* Friday.

A YOUNG COMMANDER.—The loco focos are acting upon the principle that it is better to claim too much than too little for Gen Pierce. The editor of the Daily Dispatch, a loco foco paper published at Portsmouth, Ohio, says that his father was an officer in the Revolutionary war, and that the General himself, if he is not much mistaken, "*took command of Gen. Pike's army after that gallant officer was mortally wounded at the battle of York.*" As Gen. Pierce was born in 1804, he was at the time of the capture of York about eight years old! It may seem incredible to some people that so young a gentleman should have been an officer in the army, and the next in command too, to the immortal Pike. But we presume the loco foco editors will succeed in satisfying many of their readers that such was the fact. Will not the *Free Press* try it?—*Detroit Tribune.*

RISE OF WATER.—In part of our edition last week, we announced the carrying away of the dam at Horicon on Saturday. The water commenced rising here on Thursday last, and we are informed (Saturday noon 1 o'clock) that it has risen about eighteen inches. The stage yesterday was delayed on account of the water on the plank road at Vicksburgh. To-day we learn that the plank road is impassable. Part of the dam at Ixonia is gone. This is all the damage sustained in this neighborhood from the giving way of the Horicon dam. The Hustisford dam still stands. No great apprehension is felt at this point, and as Rock River is very high below Boomer's dam, we do not think much damage will ensue below. All our mills are kept running to take off the surplus as fast as possible.—*Watertown Reg.*

SODDING A RAILROAD.—Last week we took a short excursion East, on the Michigan Central Railroad, and were gratified to observe, at different points, a large number of laborers engaged in filling up, leveling and sodding the road bed Where the work had been completed, the cars appeared to be running over a beautiful green ridge, with no indications of a road but the black iron rail. Mr. Brooks, the enterprising Superintendent, is wide awake to everything calculated to render his Road a popular thoroughfare, and he is not unmindful of the fact that one of the greatest drawbacks to the pleasure of traveling over the Railroads of the United States, is the clouds of dust and flying sand which fill the lungs and nearly destroy the eyes of passengers whenever they open a window to get fresh air.—*Chicago Tribune.*

Correspondence of the Albany Evening Journal.

Havana, June 6

27TH CONGRESSIONAL DISTRICT.—The delegates for the 27th Congressional District met in convention at Oswego yesterday. Tompkins and Chemung were fully represented by delegates regularly appointed by conventions in their counties.—The Tioga delegates refused to come into the convention.

The convention organized and unanimously elected Charles Cook of Chemung, as their delegate to represent this district in the Whig National Convention, to be held at Baltimore on the 16th.

A TWENTY-SIX SHOOTER.—We examined yesterday, with some care, a new engine of destruction, whether of man or beast, in the shape of a gun, which can be discharged twenty-six times in two and a half minutes. It is an ingenious and perfect contrivance, and if wars occurred more frequently, or game was plentier, it would be in great demand This gun was invented by Milo M. Cass, of Utica, N. Y., and is called the self loading, self-capping, repeating fire-arm. It is charged and capped for twenty-six shots at the same time. Ball-cartridges are used, and there is perfect safety in the handling of it. At the American Institute Fair, in New York, it took the medal for rapidity of firing, and is very accurate.—*St Louis Rep.*

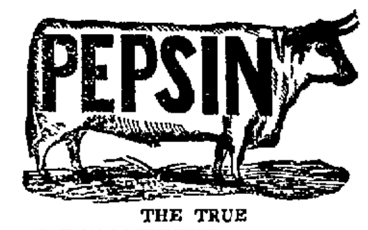
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful"

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process"

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions"

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs after a long sickness Also, for excess in eating and the too free use of ardent spirits It almost reconciles Health with Intemperance

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copywright and Trade Mark secured

☞ Sold by all Druggists and Dealers in Medicine.

Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors They are emphatically what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once used, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health*. In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES. No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by its directions in the use of the medicines.

A word to the wise is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State and throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no *big bottle humbug*, or pleasant drink, but *as it should be, a Medicine* of the greatest power in promoting an entire change in the system, by eradicating those impurities of the blood which are the *seeds* of almost incurable disease in man

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last stages and for bowel complaints it has no equals

THE GRAEFENBERG VEGETABLE PILLS are particularly valuable for the prevention and cure of *Fevers* in general. They act gently, naturally and surely and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflammation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious In the *Mineral Region* of our State its merits are universally appreciated

THE GRAEFENBERG EYE LOTION.—An unprecedented article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *afflicted woman* be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it

THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c., are all invaluable remedies, directions for which and all the medicines are attached to each.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849 in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the Woodworth Patent [illegible] I had [illegible] PATENT STATIONARY CUTTER, PLANING, TONGUEING AND GROOVING MACHINE, through out the United States

"PLANING MACHINES.

I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the engineers that they will find substantially the machine [illegible] by [illegible] pretending inventors, described in the [illegible] volume of the Repertory of Arts, invented by Samuel Bentham in the year 1791. A like machine was patented in this country [illegible] and some sixteen years since, and another one put up by Albert, Richards of West Troy, N. Y., and abandoned about the same time. I ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one is in use, at any rate for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON
Philadelphia."

May 19, 1849
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before the [illegible] as much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I can do what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the Woodworth machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be agreed on for such a trial.

SALAMANDER SAFES.
WILDER'S PATENT AND RICH'S PATENT COMBINED.
$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York—Three Stores and their contents destroyed. Deeds to be forwarded.
RICH'S SAFES AGAIN!
Eleven Safes of different makers consumed, with their contents. The Safe made by Rich & Co defied the flames and brought out its contents without a mark of fire upon them!

MR. GILBERT'S LETTER.
THE FIRE IN FLETCHER AND PEARL STS, NEW YORK
New York Dec 20, 1851
Messrs STEARNS and MARVIN, successors to C. Rich & Co, No. 146 Water Street, New York.—Sirs: when the fire was consuming my place of Business, No. 216, Pearl Street, I was absent in Rensselaer County testing a new cleaning apparatus in connection with my Excelsior Thresher and did not read the account until I was notified it was too late to save my books, which were placed in one of your safes purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations, after which it required [illegible] hours of labor and application to raise the Salamander from [illegible]. You may judge of my anxiety during this [illegible] my agreeable surprise upon [illegible] the [illegible] the presence of a number of gentlemen to find my books and papers saved and as legible as they were previous to the fire. The intense heat to which the safe was subjected can be conjectured from the condition of another safe (not a salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were contained in the same office, on the second floor, from which they fell upon crates of earthenware in the cellar, the ruins fell upon the salamander. In this position had been returned not even the skeleton would have remained. My loss on the insurance is $1,600 yet the salvation of my books in your salamander, with the representatives of $100,000 and important documents which could not be duplicated, I am fully compensated.

We would respectfully call the attention of our friends and the public generally, to an instrument we have recently imported from Paris, called a

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience and annoyance and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away, as the Hats are made to fit perfectly the first time.
Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.
We invite all who desire a perfect fit in a Hat to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.
Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25, surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves and in offering them to our customers we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat and are willing to save 25 per cent, to call and see us.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for
Packing, Flour and Whiskey
BARRELS,
and PIPES or HOGSHEADS, at the rate of
600 Whiskey or 800 Flour Barrel Staves

In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work from 23 inches to 72 inches in length, of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and fits them ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.
The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.
Satisfactory testimonials can be furnished if desired.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other and upon the natural performance of every function depends the health and action of the whole.

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralyzes the absorbents and excretories, and is able to take up and replace the wasted [illegible] From the very moment that this beautiful masterpiece of God becomes afflicted with pain the influence is experienced throughout the whole system no matter in what particular locality the pain may originate, whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach, whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system—No a remedy [illegible] possessing its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how slight or severe its paroxysms may be. No one can well enjoy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS

Its effects are like electricity, it arrests the most distressing pangs in a few seconds, its soothing, neutralizing, and healthful influences thrill through every minute cell membrane, and establishes the secretion of every gland in the system subduing the most excruciating paroxysm of pain and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE

The use of Morphine, Strychnine, Aconite, Belladonna, Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pain, *but to deaden the nerves to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.* If this practice is continued for any length of time the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,
And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and gravity like effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,
Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,
It relieves the most severe pains in a few minutes—checks the most distressing discharges, and
SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with [illegible] swell ing, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS

Wherever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidneys, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

Teeth as round and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,

Luxuriant tresses dancing gracefully o'er the swan like neck,
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadow o'er beauty's masterpiece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants
Possessing wondrous virtues o'er skin diseases

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

Fastens the hair upon the scalp and forces it to grow—
Like guano to a barren soil, it makes it rich and productive—
To dress the hair makes it smooth and glossy,—

DR. HOOFLAND'S CELEBRATED GERMAN
BITTERS,
Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch st., Philadelphia.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.
These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED
[From the Boston Bee.]

The Editor said, Dec 22: "Dr. Hoofland's celebrated German Bitters for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY

One of the best literary papers published, said, August 25
"Dr. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."
The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."
Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, justifying in every respect what is claimed for it by the advertiser."
The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."
The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hoofland's celebrated German Bitters when we say it is a blessing of this age and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."
The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility and Dyspepsia, it has been found invaluable, effecting cures and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

Opinion of the most prominent Druggists and Merchants of Cincinnati in its favor

CINCINNATI, Oct. 25, 1849
We the undersigned, Druggists and Merchants of this city, have been acquainted with and sold for 2 or 3 years past, an article of Family Medicine, known as PERRY DAVIS VEGETABLE PAIN KILLER, and we would assure the public that in every instance, so far as we know, it has given the best satisfaction to the purchaser. We can recommend it to the public as an article of **Great Merit and Virtue.** Indeed, we never knew an article of Medicine become so deservedly popular in so short a time, which is proved by the fact of its extensive sale, and constantly increasing demand.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co., of Buffalo, which is a worthless imitation and the pamphlet a "BASE FORGERY," which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds, such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer. The public are cautioned against these mixtures.
